Dear Friend:-

I promised I would let you know any thing I could learn of the plane which Carried your brother and my son. A friend of Harold's from Kamloops who is with the R.C.A.F. overseas. went to the Squadron the boys were in to see if he could get any news. he met a Sgt. knew Harold and was in the same raid. he said he saw their plane shot down. and all hands baled out, he saw them all land & the plane land. but it was one of the heaviest gunfires he has ever experienced so he didn't know whether they were wounded or not. but it was over German occupied territory so they didn't go in the sea or burn up in their plane, that is certain. This is really not very much help, but as I promised I would let you know anything I heard concerning them, and seeing it was some one from home who got the information decided to pass it along. trusting it will mean good Luck for both of us

I remain.

Yours sincerely
Mrs. James Fell.
